BIKE TRACE

To own a Bianchi bike means to belong to a big family. With the Bike Trace project, fans and owners can count on an exclusive tool which ensures, at any time, the full traceability and identification of any Bianchi RC (Reparto Corse) bicycle.

You just need to log on the www.bianchi.com Website, click on the Bike Owners section and register your bicycle by filling in the Trace Form with your personal data and those of the frame. The recording of this data will make it possible to trace back the history of any bike by monitoring the history of the text and also its 'sporting life'. The Quality Control Report coupon, which can be found in each packaging and includes all the necessary information for the product registration, is fundamental. In the event of loss of the coupon, it is however possible to find the necessary data directly on the frame itself. The frame code is marked on the bottom bracket of all the models, except for the carbon ones. For these last ones the frame code is on the internal parts of the left rear vertical drop out. This service guarantees the total traceability of the bicycle providing a precious support in case of theft and loss.

Thanks to Bike Trace your Bianchi is yours even more.

All information and all technical specifications are correct at time to going press. Bianchi reserves the right to change them without prior warning. For further information, please see our Website www.bianchi.com that is always updated. Bianchi recommends all cyclist to wear a helmet and to abide by the high way code.

BIANCHI SPONSORED EVENTS

COUNTERVAIL® VIBRATION CANCELLING COMPOSITE TECHNOLOGY

BIANCHI'S INNOVATIVE SOLUTION TO CANCEL VIBRATION

Bianchi collaborated with **Materials Sciences Corporation** to develop our innovative and exclusive application of the patented Countervail® integrated vibration cancelling system for cycling. The result is the new Bianchi Infinito CV. Scientific studies prove that long term exposure to vibration, typically absorbed by the rider, causes muscle fatigue and discomfort, resulting in reduced performance.

INTEGRATED SYSTEM PROVEN IN NASA AEROSPACE OPERATIONS

Traditional passive damping of the frame using superficial rubber inserts and isolators are only marginally effective compared to the integrated carbon Countervail® system developed by Bianchi and proven in the extreme conditions of NASA aerospace operations. With its patented carbon fiber architecture and viscoelastic material, Countervail® carbon material, embedded within our unique Infinito CV carbon lay-up, immediately cancels vibration while increasing the stiffness and strength of the entire frame.

ADVANTAGES

- Maximized ride control and handling under normal to extreme vibration loads
- Reduced muscle fatigue and increased energy savings in distance rides
- Increased rigidity and peak power output over long distances

Bike with this technology:
Infinito CV

ROAD TEST

VIBRATION PLATFORM MACHINE

DATA ACQUISITION SYSTEM

SINGLE IMPULSE FORCE REACTION

COUNTERVAIL® MATERIAL EMBEDDED WITHIN THE CARBON STRUCTURE

TRADITIONAL CARBON FRAME CONTINUES TO VIBRATE

BIANCHI FRAME WITH COUNTERVAIL® IMMEDIATELY CANCELS VIBRATION

75%
INCREASED VIBRATION CANCELLING CAPACITY

- Bianchi's unique process to internally mold X-woven structural carbon layer
- Carbon strips are molded into the carbon structure of the head tube and BB area
- Exceptional torsional rigidity proven by Bianchi's professional riders

Bike with this technology:
Oltre XR.2

UTSS ULTRA THIN SEAT STAY

- Improved shock absorption and impact resistance
- Reduced frame weight
- Power transmission is now focused through the chain stays, leaving the seat stays as a compliant support structure

Bikes with this technology:
Oltre XR.2; Sempre PRO

- Wrinkles in the carbon material affect the property of the whole frame and add more weight
- Bianchi avoids wrinkles by pre-tuning the thickness of the laminate of each frame
- Increased frame and process efficiency
- Reduced weight

Bike with this technology:
Oltre XR.2

TRIPLE HYDROFORMED TECHNOLOGY

- Utilized at the top tube and head tube
- The tubes are welded together after initial hydroforming then inserted into another hydroforming mold and reshaped through the same process
- Provides a clean monocoque appearance while increasing the strength and steering response of the frame

Bike with this technology:
Impulso

▲ B A T ▼ K-VID

- The combination between Bianchi Active Technology and the Kevlar Vibration Isolating Device allows us to obtain different stiffness behaviors under different forces directions, without wasting power transfer
- Special design of the rear rectangle
- Kevlar insertions in the seat stays and the carbon fork
- Improved shock absorption and adherence on the road

Bikes with this technology:
Infinito CV; Intenso, Impulso, Via Nirone 7 Alu

HYDRAULIC DISC BRAKE

Bianchi is one of the first bicycle companies in the world to introduce hydraulic disc brakes in its 2014 Road carbon range. New lines, Infinito CV and Oltre XR.2, both feature a disc specific model with rear triangle and fork redesigned by Bianchi to accommodate the disc brake system.

Bike with this technology:
Oltre XR.2; Infinito CV

- The down tube features a further inner carbon blade that makes up two separate bondless chambers
- Increased strength and rigidity to weight ratio
- Improved ride control

Bikes with this technology:
Methanol 27SL; Methanol 27SX; Methanol 29FS; Methanol 29SL

- Reinforcement carbon ribs are embedded into the main tubes profiles
- Increased torsional stiffness of the head tube and the Bottom Bracket area
- The crank-frame interface becomes stronger

Bikes with this technology:
Methanol 27SL; Methanol 27SX; Methanol 29FS; Methanol 29SL

- A titanium net is molded together with the carbon fiber on the down tube to protect the frame from possible impacts with stones and material thrown by the front wheel
- Improved impact resistance and frame lifetime

Bikes with this technology:
Methanol 27SL; Methanol 29FS; Methanol 29SL

Possibility to cut the carbon seat tube and insert a traditional seat post (31,6mm) thanks to precise thickness calibration along the whole integrated seat post.

Bikes with this technology:
Methanol 27SL; Methanol 29SL

**SHOCK
ABSORBING
STAYS**

- Special designed stays with "S" shape and laminated with carbon/glass fibers enhance absorption of vertical shocks on the rear stays without weakening torsional stiffness
- Increased power transmission

Bikes with this technology:
Methanol 27SL; Methanol 27SX; Methanol 29SL; Methanol 29FS; Methanol 29SX; Ethanol 27; Jab 27; Jab 29

**ASYMMETRICAL
REAR
STAYS**

- Optimized rear stays design to obtain a very compact and reactive rear triangle without sacrificing the chainline clearance. It fits different chainrings combinations and it is optimized to improve power transmission on the driveside
- Increased power reactivity and pedalling performance

Bikes with this technology:
Methanol 27SL; Methanol 27SX; Methanol 29SL; Methanol 29FS;
Methanol 29SX

BIANCHI PRODUCT DEVELOPMENT

Bianchi believes the frame is the heart of the bicycle and is constantly investing in material technologies with the aim to produce the best bikes in the world. All frames are conceived, developed and tested inside the Bianchi headquarters in Treviglio (Bergamo, Italy), as are all graphic and colourschemes. Thanks to our Rapid Prototype Machine we can create and assemble, in house, a resin prototype of every model so that we can check the shape and final look of the frame before starting final production.

HOC "EXTREME RACING"

Ride beyond limits. The HoC category includes extreme racing performance carbon frames, optimized to achieve the most efficient power transmission with the best rigidity to weight ratio. The ideal bikes for the most expert riders.

PERFORMANCE

XC geometry and lightweight make these models truly aggressive and easy to handle at the same time, demonstrating extraordinary reliability - an intrinsic part of all Bianchi frames. The ideal bikes for leisure riding as well as for racing singletracks.

ETHANOL 27.1

ETHANOL 27.1 - SHIMANO XT/DEORE 2x10

- CODE: YJB75 (I)
- FRAME: CARBON
- FORK: ROCK SHOX 30 GOLD TK SOLO AIR 120MM
- COLOUR: OZ 
- FRAME WEIGHT: 1350g (19" size, +/- 5%)
- WHEELS: SHIMANO DEORE HUBS, SUNRINGLÈ INFERNO RIMS (I)

ETHANOL 27.2 - SRAM X7 2x10

CODE: YJB76 (I)
FRAME: CARBON
FORK: SUNTOUR XCR AIR RL-R 120MM
COLOUR: OY 
FRAME WEIGHT: 1350g (19" size, +/- 5%)
WHEELS: SHIMANO DEORE HUB, SUNRINGLE INFERNO RIMS (I)

JAB 27.2 & 29.2 - SRAM X7 2x10

CODE: YJB66 (I)
FRAME: ALUMINUM
FORK: ROCK SHOX 30 GOLD TK SOLO AIR 120MM
COLOUR: CK 
 ALSO AVAILABLE IN COLOUR: JB 
FRAME WEIGHT: 1670g (19" size, +/- 5%)
WHEELS: TEC VIGINTI 7,5, 24H, 8/9/10S SHIMANO (I)
 ALSO AVAILABLE WITH 29" WHEELS
 YJB67 **JAB 29.2** - SRAM X7 2X10 NEI COLORI CK E JB
WHEELS: TEC VIGINTI 9, 8/9/10S SHIMANO (I)

JAB 27.3 & 29.3 - SHIMANO XT/DEORE 3x10

CODE: YJB68 (I)
FRAME: ALUMINUM
FORK: SUNTOUR XCR 32 RL 120MM
COLOUR: JU 
 ALSO AVAILABLE IN COLOUR: JB 

FRAME WEIGHT: 1670g (19" size, +/- 5%)
WHEELS: TEC VIGINTI 7,5, 24H, 8/9/10S SHIMANO (I)

ALSO AVAILABLE WITH 29" WHEELS
 YJB95 **JAB 29.3** - SHIMANO XT/DEORE 3X10 NEI COLORI JU E JB

WHEELS: TEC VIGINTI 7,5, 24H, 8/9/10S SHIMANO (I)

JAB 27.4 & 29.4 - SHIMANO DEORE 3x10

CODE: YJB70 (I)
FRAME: ALUMINUM
FORK: SUNTOUR XCM RL DS 120MM
COLOUR: JP 
 ALSO AVAILABLE IN COLOUR: CK 

FRAME WEIGHT: 1670g (19" size, +/- 5%)
WHEELS: INFERNO 22, 27.5 (I)

ALSO AVAILABLE WITH 29" WHEELS
 YJBQ7 **JAB 29.4** - SHIMANO DEORE 3X10 NEI COLORI CK E JP

WHEELS: INFERNO 25 - 29 (I)

OFF-ROAD

This family includes easy-to-handle and fast-riding bikes created for those who are approaching the MTB world and want to do it in the right way. Special design and comfortable geometry offers a relaxed position to the rider.
